

High Yield Offshore Sections

(EN10225-2 S355MLO, EN 10025 S355ML)

Energy Projects is ArcelorMittal's dedicated and specialized global organization for the supply of complete and customized steel solutions for the highly demanding international Energy sector.

Our leadership in the sector is possible thanks to the partnerships we have with our customers, our extensive product portfolio, and the highly innovative and technical solutions we offer. Along with our products, we offer value-add services like project management that ultimately support our customers to turn highly critical projects into success stories.

UNIVERSAL BEAM & COLUMN

The addition of Universal Beam and Column to our high yield offshore sections stock range ensures that Energy Projects continues to be the most complete stockist of EN10225 S355MLO / EN10025 S355ML sections.

This addition also contributes to our mission to provide tailor-made and complete packages of steel products and services for our clients based on quality assurance and supply chain management.
